

Dear Parents

**Chicken pox, Measles and shingles**

Please may we ask for your co-operation in an important matter.

One of our children is receiving medical treatment for cancer which puts them at risk of becoming very unwell if they are exposed to measles, chicken pox and shingles.

If they are exposed to chicken pox they will need to be given treatment as soon as possible. If your child is suspected of having chicken pox you should let us know immediately.

Your child is not at **ANY RISK** whatsoever from this situation. However, the health and well being of our pupil who is at risk, does depend on the cooperation of all other parents and carers and we hope you can help us.

With Many Thanks
