

Maths GCSE Revision Teach Meet

Resources for the new Maths GCSE

A great opportunity to share and collect revision resources for the new Maths GCSE.

With the new GCSE examination fast approaching, this Teach Meet will give teachers the opportunity to share and discuss suitable revision techniques and resources. We will look at ideas in line with the new specification and consider adaptations of old favourites. There will be feedback from their use in the classroom and an opportunity to talk to teachers facing the same challenges of the new examination.

For those who attend, all the resources will be available online after the event, with the hope that this bank of ideas will grow over time.

If you would like to contribute a resource to be shared at the event, please contact us with it in advance.

Please sign up at mathshub@george-spencer.notts.sch.uk if you would like to contribute or attend. If you would like to contribute it is vital that we have a copy of the resource in advance so that we can ensure no duplication and that a wide range of activities are covered.

Date: 6th December

Venue: George Spencer Academy

Time: Twilight 4.00 – 6.00 pm

Please register your interest at:  mathshub@george-spencer.notts.sch.uk
