

Name: Paul Higginbottom

Title: Headteacher

Length of Position: Three years

Quote here: I became an LLE to make a difference beyond my own school. I look forward to working with colleagues to lead an effective school.

Four short paragraphs here:

My school is a relatively small school (around 100 plus nursery) in a rural village. Children are taught in mixed year groups.

My particular areas of strength include leadership development (I am a facilitator for the NPQML programme), pupil progress tracking, Assessment for Learning, budget management and support to ensure quality first teaching with effective support for learning.

My school has supported others through peer support for teachers and coaching for leaders.

The school has improved an Ofsted grading during the time our school has worked with them.
