

Working with EAL Beginners Strategies to access the Curriculum

Hounslow Language Service Ltd

Can your beginners and early stage EAL learners access lessons in the different subject areas in the classroom?

Do you have a range of strategies that enable you to plan and teach the language and content which EAL beginners need to learn?

This one day course focuses on the teaching of survival English as well as strategies that enable beginners and early stage learners of EAL to access all areas of the curriculum.

We explore the skills that these pupils need in order to take part in the oral and literacy tasks in the classroom. We also look at ways of developing thinking skills in relation to content and language.

We will examine some beginners' schemes of work and induction strategies that enable new arrivals to settle into school effectively.

This course is suitable for staff working from Foundation Stage to Key Stage 3.

**Friday 21st April 2017
9.30am–3.30pm
